

# WELLSOFT WORKS

## Ranked #1 Vendor in KLAS 2008 EDIS Performance

Wellsoft Corporation is proud to be the first place vendor in the June 2008 KLAS Emergency Department Systems Performance Report. Wellsoft has been ranked first in four of the five KLAS EDIS reports published since 2002. KLAS offers this independent report from healthcare executives and professionals comparing over 20 vendors offering EDIS adoption.

## Huntsville Hospital Impresses The Joint Commission (TJC)

Recently, Huntsville Hospital in Huntsville, Alabama had their Emergency Service Line review with The Joint Commission (JACHO).

*Laura Price, RN, MSN, Nursing Informatics Manager, Emergency Department at Huntsville Hospital* shared the following in a letter to Wellsoft:

The TJC Nurse Surveyor loved Wellsoft. She called it a "jewel". She loved the flow, the dates and times associated with the documentation and best of all....that she could read it. We had extensive time in all of our three areas with surveyors and I'm proud to say that the ED Service Line did not generate or receive one RFI.

The Administrative Surveyor noticed that our Suicide Assessment did not match the Inpatient Assessment. Within a few hours, we made the necessary corrections. TJC Surveyors were very impressed with how easily and quickly we were able to make the change. Our COO told me that TJC was very impressed with the ED and Wellsoft as well.

I'm very proud of our organization and want you to know that Wellsoft is part of something positive. This is testimony on how wonderful the Wellsoft product is and how you all made it that way. I'm sure many hospitals view you as just a vendor and you get paid for such services. **But from my experience, Wellsoft offers more than that to it's clients....you offer a partnership of making emergency medicine the very best it can be."**

*Congratulations to the Huntsville Hospital Team!  
We are proud to be part of your success!*

## New Features

**Clinical Decision Support for Core Measures** – This tool provides flexible and customizable clinical decision support based on patient specific information. EDs define custom "rules" that scan multiple areas of the patient record and perform conditional statements to provide risk management checks and prompts in real time.

**Crystal Reports® Tool for Wellsoft EDIS Reports** – Includes database scripts, Crystal Reports functions and documentation to make it easier for the Crystal Reports Designer in your organization to write reports using the information stored in the Wellsoft EDIS database.

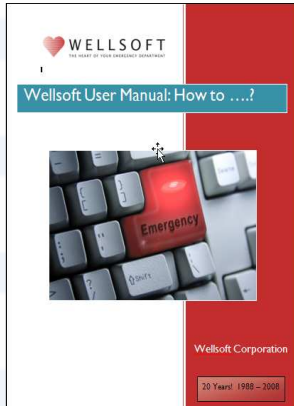

**RFID** – Wellsoft receives real-time current location and alarm notification data from the RFID enterprise engine. These updates are then displayed to the staff using the Patient Track.

## Wellsoft Welcomes New Customers

- ◆ **St. Joseph's Hospital in Philadelphia, Pennsylvania** will begin their implementation in August to prepare for their Wellsoft EDIS go-live scheduled for Fall 2008.
- ◆ **Thomas Jefferson University Hospitals in Philadelphia, Pennsylvania**, will be installing Wellsoft EDIS at their three hospitals. The first go-live is scheduled for Fall, 2008.
- ◆ **St. Vincent Medical Center North East in Fisher, Indiana** will become the 6th Emergency Department in the St. Vincent Health System organization to install Wellsoft EDIS. Installation is planned for Indiana's first free standing Emergency Department for Fall 2008.

## New User Manual

Wellsoft's User Manual has been updated to include:

- ◆ "How To" Approach
- ◆ Improved Graphics
- ◆ ED Visit Centric View

User Manuals are provided with each system installation (hardcopy and electronic versions) and are updated as needed for new features and capabilities.

## New Features Implemented

- ◆ Alameda County Medical Center – *Nursing Documentation*
- ◆ Huntsville Hospital – *Clinical Documentation*
- ◆ Memorial Hospital – *Nursing Documentation; Zebra Printer for Allergy/Medical Alert Wrist Bands*
- ◆ The Nebraska Medical Center – *Care Plans*
- ◆ Santa Clara Valley Medical Center – *Results Inbound*
- ◆ St. Louis Children's Hospital – *Image Capture*
- ◆ The University Medical Center at Princeton – *CPOE*

## Kudos to Dr. Sacchetti Our Lady Of Lourdes Medical Center

On May 20, 2008, **Al Sacchetti, M.D., FACEP**, Chief of Emergency Medicine, was recently recognized as a "**Hero of Emergency Medicine**" by the American College of Emergency Physicians (ACEP).

Wellsoft congratulates Dr. Sacchetti and Our Lady Of Lourdes Medical Center in New Jersey, a Wellsoft EDIS Installation since 2006.

## Congratulations North York General Hospital

North York General Hospital (a Wellsoft EDIS client since 2003), based in Toronto, Canada was selected as a winner of the annual 3M Healthcare Quality Team award.

*North York General Hospital won the Programs and Process in the Acute Care Hospital Environment category for "Patient Flow: Improving the Patient Experience."*

Wellsoft is proud that its EDIS solution contributed to the improvement of patient flow, increased patient safety, and had a positive impact on North York's patient experiences and staff satisfaction.
